MYLAPS

Quick Start Guide Steps to activate your transponder using FLEX Manager

Step 1:

Download the software from: http://flex.mylaps.com

Step 2:

Install the software. The software installs the FLEX Manager and the driver for the cradle.

Step 3:

Start the FLEX Manager. The FLEX Manager will automatically try to find a connected cradle.

Step 4:

Connect the cradle to the computer.

Final Step:

Activate your FLEX transponder by inserting it in the cradle and pressing the 'Activate' button in FLEX Manager.
